# 'NORTON' MOTORS AND DYNAMOS.

. . . We have much pleasure in stating that the Coupled Set, consisting of Compound Engine and 20 Kilowatt 'Norton' Dynamo, which you supplied to us sometime ago, and which has been doing our work constantly since, has given us the most complete satisfaction. The commutation appears to be very good; the commutator shows no sign of wear, and is practically free from spark under all loads.

. . . It gives us pleasure to say that the 'Norton' Electric Motor with which you supplied us has given complete satisfaction.

. . . We have much pleasure in stating that the 'Norton' Electric Motor which you fitted up in our Brewery some months ago has given us entire satisfaction. It has been almost constantly in use, and has given us no trouble whatever.

. . . The 'Norton' Motor supplied to us some time ago is giving us every satisfaction.

. . . We have much pleasure in bearing testimony to the efficiency of your 3 H.P. Electric Motor recently supplied to us. It is well built and strong, and seems quite equal to the strain we put upon it. We may mention that your Motor drives one of Messrs. Greig's 'Clamp' Guillotines and a Nipping Machine.

. . . The 'Norton' Motor you fitted up here for driving Churn seems to be working very satisfactorily. It has given no trouble since you fixed it up some two and a half years ago, and appears to be a success in every way.

. . . Referring to the Motor which you erected for us, we have not used this machine very much, but all the work it has been required to do has been carried out very successfully.

. . . We have much pleasure in stating that the 'Norton' Electric Motor supplied by your firm is giving entire satisfaction.
